

There ain't no party like a Mathematics Party!

Need your daily mathematics fix?! White Rose have got you covered! At 10am everyday, White Rose release a video and activity for EVERY year group. The videos stay online, so even if you haven't had a Maths party yet, you can start from lesson one! As we use White Rose in school, the children should be familiar with the tasks, but don't worry, they also upload the answers and if you're stuck you can always send an email to your class email!

How to join in the #MathsParty

- ★ At 10am go to: <https://whiterosemaths.com/homelearning/>
- ★ Choose your year group
- ★ Watch the video
- ★ Try the questions
- ★ Tweet your solutions or ask questions using the hashtags #MathsEveryoneCanAtHome and #MathsParty
- ★ Email us if you're stuck at mathshelp@whiterosemaths.com

Year 6 also love watching Maths Mansion videos during snack time (it's Mrs Cleghorn's favourite!). These videos are suitable for Year 4, 5 and 6. If you type Maths Mansion into Youtube, there will be plenty of videos. Each video is 9 minutes focuses on one objective (such as x by 10, 100 and 1000) and at the end there is a challenge for the children!

Show us your best maths face!

As you know, Mrs Anderson is well known for her maths face. HOWEVER, we've actually never seen any of yours! So this week we'd like you to send in a selfie of your best maths face to your class email. They will be shared on our school Facebook and Mrs Anderson and Miss Evans will choose a winner at the end of next week!
