

Hello Year 3!

Remember to send your pictures, examples of wonderful home learning and any questions to year3@swaythlingprimary.org!

I hope everyone has had a good week at home and is staying happy and healthy. I have been keeping up with PE with Joe, listening to a lot of David Walliams audiobooks (do any of you know Windy Mindy from the World's Worst Children?) and getting stuck into my scrapbook.

Did you know that this Wednesday, 22nd April, is Earth Day? I'm sure you have heard of climate change, how our planet is warming up and that this will affect all of our futures. The good news is that we can help to make things better! If everybody changes the way they live, it can help the planet to become healthier and safer. So your extra challenge this week is to find out more about climate change and what we can do to help, then make an Earth Day Pledge - and stick to it!

Earth Day Pledge

A pledge is a serious promise that you make.

Do some research about climate change. You could watch a documentary, search on the internet or talk to an adult at home. Think about things that you could do to help our planet. For example, you could use less electricity at home, grow your own food, use less plastic, or walk and cycle more. Have a look at these websites for some more ideas:

<https://kidsagainstclimatechange.co/what-can-kids-do-to-help-slow-down-global-warming/>

<https://climatekids.nasa.gov/how-to-help/>

<https://www.climaterealityproject.org/blog/just-kids-what-climate-change-and-what-can-i-do>

Choose one thing that you will change in your house and make it your Earth Day Pledge. Now you need to be responsible to make sure that it happens! Create a page in your scrapbook explaining what you are going to do and how this will help the planet.

My pledge is to produce less plastic waste by buying things with less packaging.

This half term our topic would have been

PREDATORS AND PREY

What does that mean? Can you complete Challenge #8 in your scrapbooks. See if you can come up with a few examples of each. These pictures will give you a clue...

Innovation

Coming up with new ideas and creative thoughts is being innovative. Try to come up with a new idea of something different to do every day - it will also stop you getting bored!

Don't forget to do some online learning!

- MyMaths: try the extra addition and 3x tables activities
- Times Table Rock Stars: can you beat my challenge?
- Manga High: more Maths!
- Numbots: can anyone catch up with Georgia?
- Education city: Maths, English AND Science fun!
