

Hi Year 3!

I hope you are all happy and well, and finding lots of fun things to do while the school is closed. I have been mainly spending lots of time playing with my children. We love lego and robots, and we have all been cooking. I have made some delicious chocolate chip cookies and a lemon cake, and they made me some lovely grass soup and mud tea.

lego rockets

We are all spending a lot of time at home at the moment, so here are some ideas for things that you could do. I would love to see any pictures or hear about what you have been doing, then I can share them with the rest of the class and have a go myself - so email your pictures, examples of wonderful home learning and any questions to [year3@swaythlingprimary.org](mailto:year3@swaythlingprimary.org)!

### EXERCISE YOUR BRAIN!

There are so many ways you can keep learning even though you're not at school:

*Write a story...*

Imagine you never left your Place Between. What happened after you arrived? What else did you discover there? Send me your stories!

*Read, read, read...*

If you've read all your books at home, go online to Bug Club, listen for free at [stories.audible.com](http://stories.audible.com) or join David Walliams for elevenpences each day on his website.

*Log in to...*

- Times Table Rock Stars - I have challenged you all... can you beat me???
- Manga High and MyMaths - well done to everyone who's already had a go at the challenges.
- Numbots
- Literacy Planet

### ~ Keep Fit and Healthy ~

Although we can't go out, we can find new ways to stay fit at home...

A man in Southampton ran Gareth's Garden Marathon (26 miles!) in his back garden on Saturday - it took him over six hours, and he raised over £2500 towards Great Oaks School. Wow!

I have been doing P.E. with Jo at 9am every morning, followed by some Go Noodle dances.

I would love to hear your ideas for other ways to keep fit at home!

### Creative Corner

Make a rainbow to display in your window. People across the world are putting rainbows in their windows as a symbol of hope and to connect with others who see it. If you are going on a walk near your house to get some exercise, go on a rainbow hunt - I spotted eight yesterday! My rainbow 😊

Try some doodle art. Draw a squiggle pattern (imagine you're conducting an orchestra). Draw over the lines with a black pen. Fill in the spaces with different colours and patterns, and watch the design emerge! Try using different media (crayons, pens, paints) and putting some words in too.

Make some music using things in your house. I read about a man called Hermeto Pascoal, who made music out of anything he could find: glasses, tables, toys even parts of his body! See what sounds different things can make and put your favourite ones together to make a tune or rhythm.

Swaythling Values **Be Thoughtful**

Do something thoughtful for someone in your house every day.
