

HELLO

Hello Year 4 - we have now reached the Summer term!

This week has been productive as I have made progress through my list of skills. I have made an origami frog (I have received pictures of some that are far better than mine!), I completed the 10 bin shots in a row and have made even more progress in making a video!

I would like to say how proud I am of all the hard work that you have done and have loved seeing all the amazing home learning! Please do keep sending them to me. This half term, our topic is **Predators and Prey**.

So, my theme for this week is going to be:

Predators

Here are some ideas of home learning you could do:

Create your own Predator and tell me how it hunts its Prey. (Make sure you give it the cool name that it deserves!)

If you are able to go outside safely, can you discover which animals are Predators in the UK? Maybe you can sketch each one.

Create your own word search about Predators (send it in and I will complete it and send it back!)

Write a character description or comic about a predator hunting its prey.

As I have not taught this topic yet, if your grown up emails me, I can send the Knowledge Organiser to them to help with your home learning.

There are also tasks you can do on MyMaths, Times Table Rockstars, Mangahigh and Literacy Planet!

Today, the 22nd April, is World Earth Day! Break Free From Plastic is a global movement with the goal of eliminating all unnecessary and toxic single-use plastic, creating a planet that is kinder, fairer and safer for everyone.

Can you create a poster tell me about the effect of single use plastic on our planet?

Don't forget to send your pictures and examples of your wonderful home learning to year4@swaythlingprimary.org
