

Hello Year 4 - I hope you are all okay!

This week I have continued to learn and keep my brain active. I have practised my times tables and managed to get 46 questions correct in a minute. Have a go and see if you can beat my time! I have also loved seeing all of your home learning and have learned some new facts like the Harris Hawks hunt in packs, Vultures are scavengers and are important to the ecosystem and some species of flies are both predators and prey! Keep them coming in!

When I have not been learning, I have been doing quizzes with family and friends through video chats which has been a lot of fun! I also did 26 keepy ups as part of the 2.6 challenge on Sunday that I saw Southampton FC promote and some of their players complete.

My theme for this week is going to be: **The Environment**

GAME RESULTS:

- 460 COINS EARNED
- 46 CORRECT
- 0 INCORRECT
- 1.3 SEC/QU

Here are some ideas of home learning you could do:

Choose one from: deforestation, littering and pollution, growing population or building developments, and discover which animals could be effected.

Can you find items around your house and tell me whether they can be metal recycled, paper and card recycled, glass recycled or composted.

Create your own word search about environment (send it in and I will complete it and send it back!)

Choose a continent and list 10 facts about either the environment or the wildlife that live there.

Write a setting description about your favourite place in the whole world.

There are also tasks you can do on MyMaths, Times Table Rockstars, Mangahigh and Literacy Planet and Education City!

Can you create your own quiz for your family?

Use all the facts from the topics you have learned this year and see how many they can get!

Don't forget to send it in and I will try and answer too!
Hopefully with 100%.

Don't forget to send your pictures and examples of your wonderful home learning to
year4@swaythlingprimary.org
