

Hello Year 5! I hope everyone is safe and well. This week I have carried on exercising daily and have been on zoom and facetime with lots of my friends and family, doing quizzes, hula hooping and planning some Maths with Miss Evans! I've also been playing on Kahoot and have a quiz for you to do!

Our topic for this half term is:

Floodland

This half term our topic would be called 'Floodland'. During this topic we would look at global warming, the water cycle and rivers of the UK. In English, we would have been reading the book called 'Floodland' by Marcus Sedgwick.

You can get a free 30 day trial on audiobooks.com (your parents would need to sign up, so ask them before you click the link) and you can listen to 'Floodland' on there:

<https://www.audiobooks.co.uk/audiobook/floodland/24099>

Mrs Cleghorn, Ms Gibbons, Miss Evans, Mrs O'Keefe and I really like this book and we were so excited to read it to you!

Activities:

1. Draw or create a diagram of the water cycle.
2. Research global warming and produce a poster or powerpoint with your facts.
3. Draw a picture to represent global warming, like the picture of Earth above.
4. Find out about the rivers in the UK. Have you been to any before?

Kahoot Quiz time!

We have played Kahoot in class before and I know how much you love playing it, therefore I have created a quiz which you can complete in your own time during the next week.

Click on the link below or go onto the Kahoot website and click play and enter the the pin:

09867908

https://kahoot.it/challenge/09867908?challenge-id=3a52199c-40b7-4624-8f01-dc706162398b_1588064607425

As your nickname, please either put your First or last name.

7 of the teachers have played, and 2 of them managed to get 100% Will you manage to join them in 1st place?

I have been so proud and have loved receiving all of your wonderful work so far, please keep sending it to year5@swaythlingprimary.org
