

Make a Mask Craft

Can you make a mask out of a paper plate? Think about the person, animal or character you want to create? You could even use it to tell a story afterwards.

You Will Need

- a paper plate
- string/elastic
- lolly sticks
- scissors
- glue
- paint
- markers
- other resources (pipe cleaners, wool, sequins, coloured paper)

1. Use the paper plate as the face. You may wish to paint it a certain colour. Remember to leave it to dry.
2. Add the main features to your face using the craft resources you have (eyes, ears, mouth, nose).
3. Add some wool or string as hair (if you are making a person).
4. Use any other resources you wish to add more detail.
5. Either stick a lolly stick to the bottom of your mask or make two holes, one on each side and thread string or elastic through so you can wear it.
6. Have fun with your mask.
