

# hello

## Summer Term Week 4

Hello Year 6. We are loving all the photos of the home learning linked to our topic 'Floodland' that you have been sending in! Keep up the good work and send it to [year6@swaythlingprimary.org](mailto:year6@swaythlingprimary.org).

Don't forget we are setting weekly tasks on Manga High, Education City, My Maths and Literacy Planet!

### Mrs Cleghorn's Week:

I am still keeping up with my daily exercise with Joe Wicks and our walks around our local area. This week we saw lots of baby geese on the lake and in a nearby field which the geese use as their 'nursery'. On Friday my street had a street party to celebrate the 75th anniversary of VE Day.

### Ms Gibbons's Week:

I hope you've enjoyed looking at the artwork of Banksy, I have loved having a go at copying some of his work.

Sadly, this is goodbye from me as I am on maternity leave from next week! I will keep in touch though, and let you all know when baby arrives. I miss you all and look forward to hearing more about what you've all been up to.

Stay safe Year 6! :)

### Miss Evans's Week:

As always, I've been doing Joe Wicks every day and I went for 2 runs this week. I also skyped my grandparents again this week, they're finally getting the hang of it! My mum has also had her photo taken with Banksy's art work in the hospital! It's so cool! The adults have also had a go at the Banksy inspired drawings, have any of you done one?

### Activities to do:

1. Find out about the water cycle. Can you draw or make and label the water cycle? Here is the water cycle song, which is very catchy, and a Youtube clip with lots of information!

<https://www.youtube.com/watch?v=U80LVjVX75k>

<https://www.youtube.com/watch?v=TWb4KIM2vts>

2. Have a go at making some fruit infused water:

<https://www.eatsamazing.co.uk/family-friendly-recipes/drinks/citrus-fruit-infused-water-kids>

3. Pick 1 river in the UK to research. Write or make a fact file, PowerPoint or poster about it. Think about where the river starts and ends, what cities and counties it goes through and how long it is.

4. Try a little science experiment and make your own lava lamp (ask your parents permission as it will be messy!). The instructions were posted in the Facebook group, which Miss Buttle found!

5. Miss Bowen has created a Kahoot quiz about rivers and global warming. Miss Evans got 15/16 questions right, can you beat her? The pin is: 05435877 enjoy!
