

Hello!

It's now week 4 of summer term. I was super impressed with the maths and creative challenges last week! Keep on sending them all in. I love to see it all.

This week:

MangaHigh: Comparing, Capacity, 10 Times Table, More Counting in 5s.

MyMaths: Number Bonds, Multiplication Introduction.

EducationCity: Reading Comprehension and Ordering and Comparing Numbers. These are sequences of activities, have a go at a few at a time. Previous themes are still available.

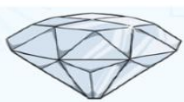

Others: Phonics games on Literacy Planet and reading on BugClub.

English Challenge: Read a story and write a book review for me. Make sure to include: Who are the characters? Where is it set? What was your favourite part? Then give it a score out of 5!

Maths Challenge: Fractions! A half is one of two equal parts. By using objects or drawing something to help can you find half of each of the numbers below? A quarter is one of four equal parts. Similarly, can you find a quarter of the numbers?

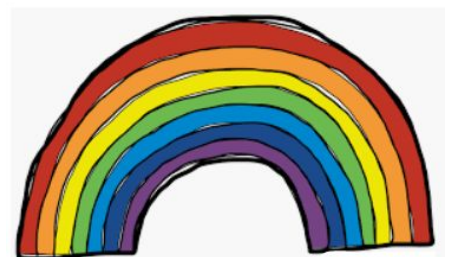

12 8 16 4 20 32

Topic Challenge: Materials! Find 3 items in your house made of different materials. Think about what properties they have.

wood	plastic	glass	metal	fabric
 shiny	 dull	 smooth	 rough	 stretchy
 soft	 hard	 waterproof	 bendy	 stiff

Creative Challenge: Make a rainbow. Collect objects in all the colours of the rainbow and put them in the right order. You could use toys, coloured pencils, food packets, collect things from nature if you go on a walk or into the garden. Whatever you choose, don't forget to take a picture and send it to me

Don't forget to email your pictures to year1@swaythlingprimary.org so I can see what you're up to!

Have a lovely week!
