

Hello!

The fifth and final week of this half term. At school the value for this half term would have been Kindness. As an extra challenge for this week I'd like you to do something kind for each person in your house. You could help them with a job, share your things with them, give them a hug when they're feeling sad or draw or make something for them. I'm excited to hear about all the different ways you can think of to be kind!

This week:

MangaHigh: Add and Subtract up to 20, Counting Across 10s, Quarters, Addition and Subtraction Games.

MyMaths: Introducing Fractions, Place Value to 30.

EducationCity: Materials and their properties. These are sequences of activities, have a go at a few at a time. Previous English, Maths and Science themes are still available.

Others: Phonics games on Literacy Planet and reading on BugClub.

English Challenge: Some people on the Titanic would have written diaries about their experiences. It was very exciting sailing on one of the biggest cruise ships ever built. Have a go at writing a diary of what you get up to this week. Here is mine as an example:

Saturday
Dear Diary,
Today I have been very busy.
I went for a walk to the shop
because we needed some milk.
Next I did some of my new
puzzle. This one has toucans on
it. After lunch I watched a film
and spoke to my Grandma on
the phone. I cooked lasagne
for dinner and made a bit of a
mess. It was very tasty though.

Maths Challenge:

Odd and Even numbers. An even number is a number made up of all partners. An odd number is not all partners. Draw out the numbers up to 10 (or 20) to see if they are even or odd. I have done a few for you. Write out the even numbers in order. What do you notice about them?

Topic Challenge: Geography: The titanic was built in Northern Ireland and then sailed to England to pick up its passengers. England and Northern Ireland are 2 of the 4 countries of the UK. Can you remember the other 2? See if you can write the names in the right places on the map. Extra Challenge: Can you also name their Capital cities.

Creative Challenge: My creative challenge is sporty this week! Can you design a new game using only items you can find in your house. It could involve throwing, jumping, carrying, running. Play your game with a family member and let me know who wins! If you want to you could write down the rules so I can try it too!

Don't forget to email your pictures to
year1@swaythlingprimary.org
so I can see what you're up to!

Have a lovely week!
