

Hello Year 5!

I hope everyone has had a great week. I have been out every day this week, either walking, cycling or paddling. I went for a walk with Miss Evans and Mr Heap - it was great to see them!

I am halfway through reading Who let the gods out, which I know some of you have read, and a few of you were lucky enough to meet Maz Evans (the author). One of my friends made me Oreo Brownies and they were delicious! I might have to try and make them myself.

Our topic for this half term is: Rollercoaster Tycoon: feel the force!

- On the right hand side there is the first page of our Harris Burdick book. Harris Burdick is a picture book. In the book this picture is called 'Archie Smith, Boy wonder' and it says, A tiny voice asked, "Is he the one?" Imagine you are an author, Can you write a short story about this picture?
- Pick one theme park which is outside of the UK, and compare it with the theme park you researched last week. How many rides do they have? How much does it cost to get in? What's the tallest ride? What other attractions do they have?
- From your research, you will know that gravity pulls objects towards the Earth/ground. This week we are going to look at air resistance, which is a force. Air resistance acts in the opposite direction to gravity as it slows down the objects which are moving. Can you research air resistance and create a poster to show me what you have found out. A labelled diagram to show gravity and air resistance would be amazing!
- Think it question - **What if there was no air resistance?** Write your thoughts down to the question above.

TTRS CHALLENGE!

The teachers won again! 3-0.
This time I am going to set the challenge for 2 weeks.
Who will win?

Wordsearch

Create a wordsearch and send me a photo of it, so that I can complete it. It can be about a topic we have done at school or something you are interested in.

Remember there is work set on Mymaths and Education City. Log in to bug club and TTRS as well!
