

# hello

Hello Year 2 - I hope you all all well and have had a great week. Thank you for all of your updates with your home learning and please keep up the good work!

I had a very busy, uneventful start to the week but have managed to squeeze in some cycling over the weekend. Now I have finally finished that busy job, I should be able to put more effort into my challenge to cycle to and from Swaythling School in a day before the end of the school year. I've really missed having our usual maths lessons so have turned my cycling into a pictogram on the next page. On Monday, I made mobiles out of recycled materials. It was a bit fiddly tying all of the string but it was worth it! I also donated some blood this week - hopefully this will help save the life of someone who is very poorly.

Did you know it is **National Picnic Week** this week? Because of this, most of this week's challenges are picnic themed.

What would you pack if you were going on a picnic? Write a list with everything you need to bring on it. Things to remember:

- Food
- Drink
- Entertainment
- Protection

Prepare your own sandwich that you could take on a picnic. Write your recipe down so I can have a try at making it too. Don't forget to say how much of each ingredient I will need. You might also want to number each instruction so I don't get the order muddled.

A question is a sentence where the speaker asks for more information. It starts with a capital letter and ends with a question mark (?). Write 5 of your own questions about the picture to the right of the dog and the picnic basket. Can you write a question using each of these question words? Who, What, Where, When, Why

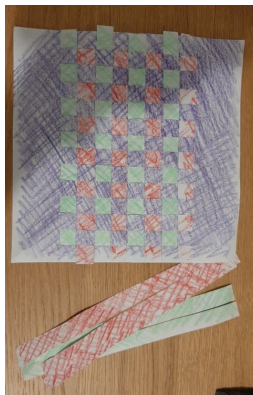

As a class, we earned 43 medals on Manga High last week! Our challenge this week is to earn 50 medals. Please email me if you need a reminder of your log in.

How is your challenge going? Have you improved? There is one week to go so keep on giving it your best!

Picnic Blankets often have a checked, weave design. Make your own miniature picnic blanket by weaving paper. I had a try using plain paper that I'd coloured in and it still looks good.

There are lots of activities to try on My Maths, Bug Club, Manga High and Education City. There are also weekly Maths and English newsletters of the school's website with lots of challenges, activities and competitions so have a go at these too!

# Miss Wilson's Cycling

Key

 = 10 km

- 1) What does  (one bike) represent on the pictogram?
  - 2) What does  (half of one bike) represent on the pictogram?
  - 3) Which week did Miss Wilson cycle the most?
  - 4) Which week did Miss Wilson cycle the least?
  - 5) How many km did Miss Wilson cycle this week (Week 3)?
  - 6) How many more km did Miss Wilson cycle in Week 3 than Week 2?  
(Hint: Look at how many extra bike pictures there are between Week 2 and Week 3. Then work out what this is in km)
  - 7) How many more km did Miss Wilson cycle in Week 1 than Week 3?  
(Hint: Look at how many extra bike pictures there are between Week 1 and Week 3. Then work out what this is in km)
- TC) What other Maths questions can you come up with about my pictogram?
