

Hello Year 2 - I hope you are all happy and healthy and had a good week last week.

# Hello

I've carried on with my baking this week. I helped make a super tasty chocolate and banana cake - it was so tempting and tasty that it was all eaten before I had time to take a photo! I've had a few more practise rides and am hoping to try my challenge of cycling to and from school this week - fingers crossed I'll have enough energy for the very, very long ride!

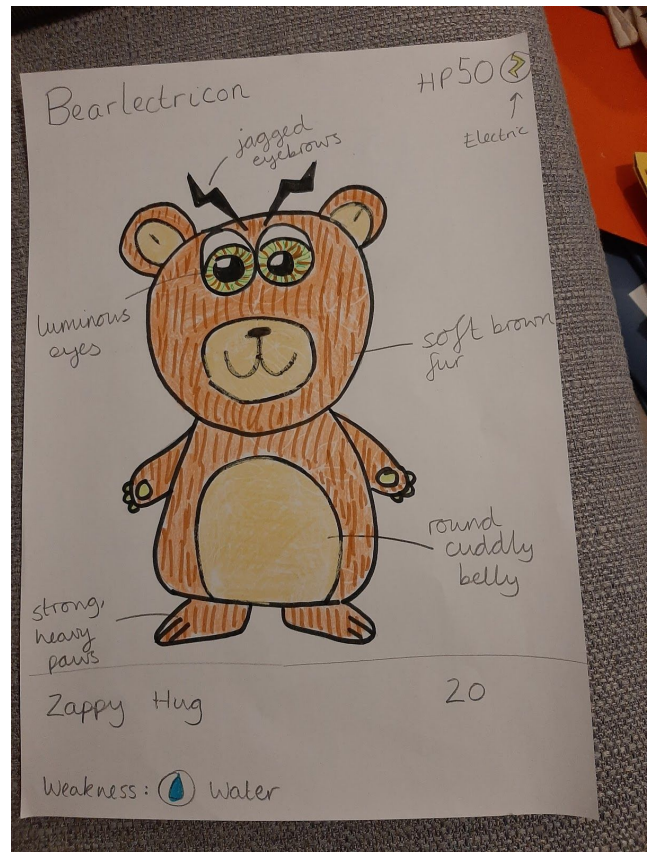

Our learning this week will be all about **Pokemon!**

Design and label your own Pokemon. Think about what type your Pokemon is (fire, water, grass, flying, rock, fairy and many more!). You might also want to include a special move and what type it is more vulnerable to. Please look at my pokemon design, Bearlectricon, if you need inspiration!

Write an adventure story about meeting a pokemon in an interesting place. You might even want to write about your own pokemon design.

Things to include in your story:

- Where did you find the pokemon?
- Was the pokemon friendly when you first met?
- How did you convince the pokemon to join your team?

Pokemon Trainers throw and catch pokeballs. Practise throwing and catching at home. You could use a pair of socks if you don't have a ball. How many can you catch in 1 minute?  
TC: Can you try throwing and catching using 1 hand?

Make your own pokeball out of recycled materials at home.

A pokemon has gone missing! Draw a map of a mysterious island - please include a key and a compass. Write at least 3 clues to help me find the missing pokemon, for example "it is north of the mountain."

As a class, we earned 40 medal points on Manga High last week! We earned 5 gold medals and 4 silver medals! Can we beat this and earn 50 medals this week?

There are lots of activities to try on My Maths, Bug Club, Manga High and Education City. There are also weekly Maths and English newsletters of the school's website with lots of challenges, activities and competitions so have a go at these too!

Please email your lovely home learning to [year2@swaythlingprimary.org](mailto:year2@swaythlingprimary.org)
