

Hello Swaythling Primary School and welcome to the penultimate week of the summer term.

This is the last week of White Rose worksheets that will be uploaded to the school website. If you do want any more learning sent home, please let your teacher know and they will be able to download some more worksheets.

Teachers have also been setting tasks on My Maths, Manga High and Education City and Mr Heap, Miss Bowen and Miss Evans have been competing in lots of battles with their classes. Why not challenge your teacher to a rockslam?

If you have a go at the Maths challenges or do any fun maths work, don't forget to send them to your teachers or to Miss Evans at year6@swaythlingprimary.org and we can put it in the Maths newsletter next week!

Mystery Matrix

KS2 problem

Can you fill in the multiplication square?

The numbers 2 to 12 were used to generate it, with exactly one number used twice.

x				
	32		40	
			49	
		22		
	15			27
		24		
			42	

nrich.maths.org

KS1 problem

On a farm there are chicken and sheep. The farmer can see 24 feet. How many sheep could there be? How many chickens could there be?

Here is a blog on the Third Space Learning website which is full of fun Maths games and activities for you to easily do at home:

<https://thirdspacelearning.com/blog/fun-maths-games-activities-for-kids/#:~:text=%20Fun%20maths%20game%20%3A%20Maths%20Problem%20Scavenger,or%20home%20full%20of%20measurable%20objects%21%20More%20>

This website has ideas to do Maths indoors, outdoors, with dice or with only a pen and
