

Hi everyone!

At school we have been really enjoying reading our book:

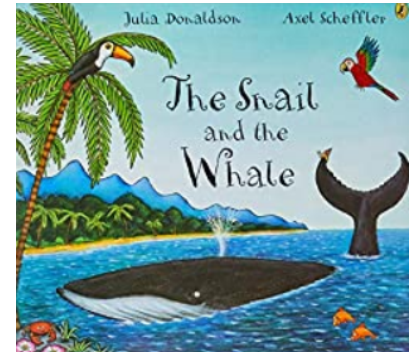

## *The Snail and the Whale*

So we are carrying on with learning from it.

Here is the video of the story to watch.

<https://www.youtube.com/watch?v=EmMnaSkeKqQ>

If you have a look on youtube, there is also the film of the story and a retelling in Makaton sign language which I try to use a lot at school.

This week:

**MangaHigh:** Weight, Measuring Length and Height.

Don't forget to try each activity at least 3 times!

**EducationCity:** Measures! Lots of past cities are also available to play.

Don't forget there is also BugClub and MyMaths.

**English Challenge:** Diaries. Imagine that you are the snail visiting new exciting places for the first time or the whale when he is stuck on the beach. Write a diary entry talking about what you can see and how you feel.

Remember to start with Dear Diary.

**Maths Challenge:** Measurement. Weight

Find different items around your house and compare them using words such as heavier and lighter. If you can, get an adult to help you weigh them using scales. Were you right in your comparisons?

**Topic Challenge:** Carnivores, Herbivores and Omnivores. Have a look at these animals and think about what they eat. Are they carnivores, herbivores or omnivores?

Humpback Whale  
I eat fish.

Sea Snail  
I eat algae  
plants.

Sea Gull  
I eat crabs and  
small fish.

Sea Turtle  
I eat jelly fish  
and sea grass.

Orca  
I eat seals and  
squid.

**Creative Challenge:** Make a snail or a whale out of things you have at home. This could be construction toys like lego or junk model out of recycling.

Don't forget to email your pictures to [year1@swaythlingprimary.org](mailto:year1@swaythlingprimary.org)

so I can see what you're up to!

Have a lovely week!
